CAPE TOWN PATTERN MAKER
PTY K 2021/303622/07

PRICE LIST 1 MARCH 2026 – 28 FEBRUARY 2027

PATTERN FEES
Master Patterns

Pattern pieces	Charge per pattern piece	Note
1-5 pieces	Flat rate R498.00	Minimal value
6 + pieces	R94.00 per pattern piece drafted.	Charged per piece drafted.

Master pattern edits all charged at R84.00 per pattern piece edit.
All patterns exclude paper/ hard board charged at R28.00 p/m.
Example:
Standard Hoodie with pouch pocket
Panel Count-- Centre Front Panel, Centre Back Panel, Sleeve, Cuff, Pouch Pocket, Pouch Pocket Iron Marker, Hood = 8 pattern pieces @ R94.00 = R752.00 for master pattern.
Should pattern pieces be less than 5 pieces a minimum charge of R498.00 will apply.

Bulk Master Patterns

Bulk pieces can be bought at discounted rates.
Note- that bulk pieces need be bought and paid prior to pattern intake.
Pattern pieces can be used across a maximum of 6 styles per 50 pieces bought.
Bulk pieces can also be used for pattern edits.

Pattern pieces	Charge per pattern piece	Amount
50 pieces	R91.00	R 4 550.00
100 pieces	R86.00	R 8 600.00
MAX 150 pieces	R81.00	R 12 150.00

Pattern Grading

Hand grading on hard board.
Grading
1-5 pattern pieces @ R270.00 per size
6-10 pattern pieces @ R344.00 per size

Sampling costs

Sampling is charged per master pattern piece drafted.
All trims are excluded from fabric cost and will be charged for.

Fabric Type	Charge per pattern piece	Note
Woven (non stretch)	R95.00	Surcharge may apply fabric depending
Knit (stretch)	R93.00	Surcharge may apply fabric depending
Silk, satin, georgette, chiffon	R109.00	Surcharge may apply fabric depending

Example:
Standard Hoodie with pouch pocket
Fabric Type: Stretch Fleece
Panel Count-- Centre Front Panel, Centre Back Panel, Sleeve, Cuff, Pouch Pocket, Pouch Pocket Iron Marker, Hood = 8 pattern pieces @ R93.00 per pattern piece = R 744.00 total sample cost.

Washing service:

Pre-wash, fabric shrinking, fabric softening and ironing

PRICE LIST

PRE -WASH – All fabric pre wash sheets 3m in length

Wash Type	Price per KG	Minimum Quantity	Maximum Quantity	Availability
Enzyme Wash	R42.00	5KG	70KG	Natural and synthetic fibers
Pre-Shrink Enzyme	R48.00	5KG	100KG	Natural and synthetic fibers
Fabric Softening NF - Intense	R33.00	5KG	100KG	Synthetic Fabrics
Shrinkage Max	R36.00	5KG	70KG	Synthetic Fabrics
Butter wash	R54.00	5KG	70KG	Natural and synthetic fibers

***–All fabric pre wash sheets 3m in length

ADDITIONAL PRE WASH SERVICES

Service	Price per sheet	Minimum Quantity	Maximum Quantity	Availability
Sheet Cutting	R3.50	1 Sheet	250m	Natural and synthetic fibers

IRONING SERVICE

Service	Price per KG	Minimum Quantity	Maximum Quantity	Availability
Steam boiler press	R44.00	1 KG	150 KG	Natural and synthetic fibers
Steam boiler press BULK RATE	R39.50	30 KG	150KG	Natural and synthetic fibers

Wash detail:

Enzyme wash:
Biological enzymes are used in this wash to specifically target and remove excess starch that accumulated during the fabric weaving process. Biological enzymes catalyse the reaction between starch and the water solution optimising the removal of excess starch. Ideal for synthetic and natural fibres pre or post production.

Pre-Shrink Enzyme:
This wash is done at temperatures between 50 - 80 Degree Celsius. The wash consists of 4 parts to allow fibres to contract to max value and not shrink further.
Biological enzymes are used in this wash to specifically penetrate fabric fibres on high heat and lock fibres upon cold rinse Ideal for synthetic and natural fibres pre-production.

Fabric Softening NF – Intense
This wash lubricates and seals fabric fibers with a bio softening formula. The formula allows softening of natural and synthetic fabrics while maintaining fusing and interlining properties. This formula activates at 20-30 Degree Celsius making it ideal for post production washing.

Shrinkage Max
A natural formula is used on high temperatures to expand and contract fabric fibers to eliminate fabric shrinkage. Not recommended for natural fibers. Ideal for synthetic or elasticate based fabrics. Pre-production only.

Butter wash
Introducing a new and innovative formula using biodegradable ingredients and a fluctuating heat process to penetrate fabric fibers. Post treatment the fabric feels super soft and lustrous. Ideal for natural and synthetic fabrics pre-production or post production.
